REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: With regards to claims 10-13 and 20, the prior art of record does not disclose or fairly teach the anode of the first varactor diode being connected to the first coupling conductor while the cathode of the second varactor diode is connected to the second coupling conductor. With regards to claim 14, the prior art of record does not disclose or fairly teach the first and second control voltages being of opposite polarity. With regards to claim 19, the prior art of record does not disclose or fairly teach a plurality of conductive fingers, each being positioned near the signal conductor and spaced apart from one another such that each conductive finger provides a portion of the first coupling capacitance along a separate portion of the signal conductor. With regards to claims 21-24, the prior art of record does not disclose or fairly teach the first coupling means comprising a conductive second planar surface parallel and proximate to a first area of the first planar surface. With regards to claims 25-37, the prior art of record does not disclose or fairly teach the signal conductor having a circular cross section perpendicular to the direction which it conveys the signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
